

Redmine - Defect #35252

Project Versions: Default version is not editable

2021-05-17 08:08 - Pan Tau

| | | | |
|--|------------------|--------------------------|-----------|
| Status: | Closed | Start date: | |
| Priority: | Normal | Due date: | |
| Assignee: | | % Done: | 0% |
| Category: | Project settings | Estimated time: | 0.00 hour |
| Target version: | | Affected version: | 4.2.1 |
| Resolution: | Invalid | | |
| Description | | | |
| If you create a new version, then you are able to set it as "Default version". New_version.png | | | |
| After creating you are not able to edit/correct this setting, because the option is missing. Edit_version.png | | | |

History

#1 - 2021-06-02 02:46 - Go MAEDA

- Category changed from Issues to Project settings
- Status changed from New to Closed
- Resolution set to Invalid

The checkbox only appears when you create a new version.

If you want to set/change the default version of a project other than when creating a new version, you can change it in the [Settings] > [Issue tracking] tab of the project.
