

Redmine - Feature #35559

Query links for related issues on issue page

2021-07-13 04:02 - Go MAEDA

Target version:	5.0.0		
Resolution:	Fixed		
Description Redmine 4.2.0 and later have query links for subtasks on an issue page (#28471). I think the "Related issues" section should also have similar links. Although there is no filter that can extract all types of related issues as mentioned in #28471 , I think the new links can be implemented by using the issue ids filter (#4806). query-links-for-related-issues.png

+1 Nice UI improvement.
I made a patch to implement this feature.
Please check the attached code.

#2 - 2021-07-26 22:36 - Marius BĂLTEANU

I would like to get more feedback from the users for this feature because I'm worried that we add too much information on the issue page.

#3 - 2021-07-27 06:02 - Mischa The Evil

Just my two cents: I think it makes sense to add this too given that [#28471](#) got integrated.

#4 - 2021-07-29 15:21 - Holger Just

+1

We should just make sure that the style of the links is consistent in both places. The CSS change on the patch does not work correctly here. It should look like this instead:

```
#issue_tree .issues-stat, #relations .issues-stat {font-size: 80%}  
#issue_tree .issues-stat .badge, #relations .issues-stat .badge {bottom: initial;}
```

#5 - 2021-08-15 14:10 - Go MAEDA

- File 35559-v2.patch added

- Target version set to Candidate for next major release
