

Redmine - Patch #35648

Changelog generator should allow merging two or more versions

2021-08-01 10:15 - Marius BĂLTEANU

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Marius BĂLTEANU	% Done:	0%
Category:	Code cleanup/refactoring	Estimated time:	0.00 hour
Target version:	6.1.0		
Description The script used to generate the changelog for releases should allow merging two or more versions. For example, for the latest releases, we generated the changelog for two versions: <ul style="list-style-type: none">4.1.44.2.2 The changelog for 4.2.2 should contain also the changes for 4.1.4, but the script doesn't do this and we need to manually merge the changelogs which is very error-prone. Also, the script should allow authorised requests in order to pull the security issues which are private at the time of the releases. The authorization should use environment variables.			

Associated revisions

- Changelog generator should allow merging two or more versions (#35648).
- Revision 23471 - 2025-01-29 08:22 - Go MAEDA
- Update usage description to clarify support for multiple version IDs in changelog.rb (#35648).

History

- #1 - 2024-11-12 20:49 - Marius BĂLTEANU
- File 0001-Update-changelog-generator-script-to-use-the-API-to-.patch added
 - Assignee set to Go MAEDA
 - Target version set to 6.1.0

Go MAEDA, can you review the attached patch? I've used it for the recent releases and it was easier to generate the combined changelog, for example:

bin/changelog.rb -i "196|197" it will generate the changelog for 5.1.4 and 5.0.10.

- #2 - 2024-11-13 09:45 - Go MAEDA
- Assignee changed from Go MAEDA to Marius BĂLTEANU

LGTM! It worked fine as far as I tested.

- #3 - 2024-11-17 12:36 - Marius BĂLTEANU
- Category set to Code cleanup/refactoring
 - Status changed from New to Closed

Committed, thanks!
