Description		
It would be nice to have more than 30 characters available for issue category names.

- Category set to Projects

My patch posted as issue [#1791](#) raises the level upto fourty characters. You can modify it as preferred. Though be aware of the fact that the (surrounding) UI might start behave wrongly when you use such long category names (e.g. the (right-click) context-menu)...

Regards,

Mischa.
