

Redmine - Defect #35734

Comments are not shown correctly in Outlookmails when using numeration where PRE-Blocks are included

2021-08-11 13:25 - Pan Tau

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	4.2.1
Resolution:			
Description			
<p>If your comment has the following structure</p>			
Intro:			
1. First number			
2. Second number			
PRE-Block 1 Row 1			
PRE-Block 1 Row 2			
3. Third number			
PRE-Block 2 Row 1			
End			
Structure.png			
than the Email you receive in Outlook 2016 (for example) looks like this.			
Outlookmail.png			
How you can see rows were added and are nummbered in the PRE-Block. So content and the numeration got wrong.
