

Redmine - Defect #35927

Slow loading of /time_entries/new

2021-09-28 13:05 - Mark J

Status:	Confirmed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Marius BALTEANU	% Done:	0%
Category:	Time tracking	Estimated time:	0.00 hour
Target version:		Affected version:	4.2.1
Resolution:			
Description			
<p>Opening /time_entries/new takes 10s, when we have 1000 users with 2 different groups that one has ~10 users and other has all other users.</p> <p>I have looked into code and it seems I have found the issue, attaching additional info via screens. Basically if project has a lot of users `assignable_users` enumerates each users permissions by one, creating 2*X (X=number users) sql queries.</p> <p>I'm hosting redmine with help of docker official image.</p> <p>Environment:</p> <p>Redmine version 4.2.1.stable Ruby version 2.7.4-p191 (2021-07-07) [x86_64-linux] Rails version 5.2.5 Environment debug Database adapter SQLServer Mailer queue ActiveJob::QueueAdapters::AsyncAdapter Mailer delivery smtp</p> <p>SCM:</p> <p>Subversion 1.10.4 Mercurial 4.8.2 Bazaar 2.8.0 Git 2.20.1 Filesystem</p> <p>Redmine plugins: no plugin installed</p>			

History

#1 - 2021-10-03 07:41 - Marius BALTEANU

- Status changed from New to Confirmed

- Assignee set to Marius BALTEANU
