<b>Description</b>			
Failure: MessagesControllerTest#test_post_new [/usr/src/redmine/test/functional/messages_controller_test.rb:163]: Expected: ["jsmith@somenet.foo"] Actual: ["dlopper@somenet.foo"]  rails test test/functional/messages_controller_test.rb:131  There is no guarantee that the elements will be in the order of "first: author, second: member" in the array mails, so the test should be modified so that it does not depend on the order.  I've had the same problem before and fixed it( <a href="#">#34169</a> ), but the change in <a href="#">r21130</a> seems to have caused the problem again.
