redmine_lightbox2	0.5.0
redmine_theme_changer	0.4.0
redmine_todos	4.1.0
redmineup_tags	2.0.8

I have problem with REST API for read wiki pages - string

[[expedice-pristupy:wiki|Přístupové údaje]]

in html response from REST API is returned as

```
<a class="wiki-page" href="Wiki.html">Přístupové údaje</a>
```

instead

```
<a class="wiki-page" href="/projects/expedice-pristupy/wiki/Wiki">Přístupové údaje</a>
```

or as full url, like links to images.

Thanks
