

Redmine - Defect #36421

RusRedmineProjectSettings Wiki page updated by strange information not related to Redmine

2022-01-12 08:17 - Alex Che

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Website (redmine.org)	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Fixed		
Description			
<p>https://www.redmine.org/projects/redmine/wiki/RusRedmineProjectSettings/13 page expose strange information that is completely replaced the old correct one. See diff https://www.redmine.org/projects/redmine/wiki/RusRedmineProjectSettings/diff?utf8=%E2%9C%93&version=13&version_from=12&commit=View+differences</p> <p>It looks as accidental overwriting and need to be rolled back. Though logins and passwords exposed on the page at the moment obviously are compromised and need to be reset (or owner of this system should be informed).</p>

Thank you for reporting the problem. I have just reverted the change.

#2 - 2022-01-12 10:59 - Alex Che

Should I mark issue as resolved or you will do it after some other activity?

#3 - 2022-01-12 13:14 - Go MAEDA

- Status changed from New to Closed
- Assignee deleted (Jean-Philippe Lang)
- Resolution set to Fixed

Sorry, I forgot to close this issue.
