

Redmine - Defect #3657

Bad issue validation

2009-07-23 09:31 - Pierre Paysant-Le Roux

Status:	Closed	Start date:	2009-07-23
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Fixed		
<b>Description</b> Issue's tracker must be active on the project. This constraint is validated at issue's creation time only. This allow to save an issue without this constraint respected. This is possible directly with the interface by first creating an issue on a project where tracker A is active and then moving it to a project where tracker A is not active.  Here is a patch that validates this constraint when saving an issue.			

History

#1 - 2009-11-29 21:00 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution set to Fixed

Tracker validation is now done when creating or moving the issue ([r3108](#)).
