

## Redmine - Defect #3663

### Problem with subversion logentry without date nor author.

2009-07-24 00:45 - Pablo Ruiz

<b>Status:</b>	Needs feedback	<b>Start date:</b>	2009-07-24
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	SCM	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	0.8.4
<b>Resolution:</b>			
<b>Description</b>			
<p>In certain cases (see <a href="http://svn.haxx.se/dev/archive-2005-08/0309.shtml">http://svn.haxx.se/dev/archive-2005-08/0309.shtml</a>) a subversion repository might not send an author nor date xml elements as part of a logentry.</p> <p>In such situations redmine (0.8.4) fails to read any revision below the failing one..</p> <p>After a bit of debugging.. I made the following modifications to lib/redmine/scm/adapters/subversion_adapter.rb, in order to make this work:</p> <pre>date = logentry.elements['date']       msg = logentry.elements['msg']       revisions &lt;&lt; Revision.new({:identifier =&gt; logentry.attributes['revision'],                               :author =&gt; (logentry.elements['author'] ? logentry.elements['author']   ].text : ""),                               :time =&gt; date ? Time.parse(date.text).localtime : nil,                               :message =&gt; msg ? logentry.elements['msg'].text : "",                               :paths =&gt; paths                               })</pre>

### History

#### #1 - 2013-02-06 09:43 - Daniel Felix

- Status changed from New to Needs feedback

Any news on this issue?

Is anyone able to reproduce this with current trunk?

Best regards,  
Daniel
