<b>Resolution:</b>			
<b>Description</b> <p>The projects page shows a messed up version of the project summary (see Screenshot 173953), if the project summary contains a table. The page of the project itself works fine (see Screenshot 174020).</p> <p>It would be nice to see the table contained in the summary of the projects page, because it contains links to usefull resources, like javadoc, JUnit test results, doxygen etc ...</p>
