Redmine - Defect #36911

Clipboard copy is broken after upgrade to 4.2.5 or 5.0.0 from 4.2.3

2022-04-09 04:37 - A Fora

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Attachments		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Duplicate		**Affected version:**	5.0.0

Description

1. Problem description:

After the upgrade, clipboard pictures are pasted as . In the previous versions they had a unique identifier e.g. . Hence if the page/issue has more than one image, they will all appear as the last image pasted to it.

At the same time, all copies of images are attached to the page/issue as seen at the bottom of the page under >Files (2) section.

1. To replicate the issue:

1. Start with a working v.4.2.3 instance of redmine/database
- migrate to either v.4.2.5 or v.5.0.0
- open an existing wiki page or an existing issue
- paste 2 different images saved in the clipboard one after another
- you will get the following two lines:

```
![](image.png)
    ![](image.png)
```

It will be soon backported to 5.0-stable and 4.2-stable branches and released as 4.2.6 and 5.0.1.

Thank you for reporting the issue.

#7 - 2022-04-11 09:11 - Marius BĂLTEANU

I've merged the fix to stable branches, but I will keep [#36887](#) open for a few days, I would like to try add a system test.

Thanks for reporting the issue.
