Redmine - Feature #3693

Wiki reference for issue name

2009-07-30 18:07 - Yuri Astrakhan

Status:	Closed		**Start date:**	2009-07-30
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Text formatting		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Duplicate			

Description
It would be very useful to have an ability to show the title of the issue on a wiki page by number, not just the link with a number itself.
For example, writing #654321 shows a link to an issue, but does not include the title of that issue.

It does show the issue title when you hover above the link with your mouse. See e.g. FAQ for an example. Hover above the closed (striked-through) #100 and you'll see the title in the "tooltip".

Can you confirm?

#2 - 2009-08-03 17:38 - Yuri Astrakhan

Yes, the tooltip does show up, but it would be very nice to be able to create a long list of issues that automatically include the title - it would not be easy to move the mouse over all of the issue in a list to read their titles. This could be a template, although i suspect it might be slow to do many queries against the database for each issue. Thanks!

+1. This is very important to have.

#4 - 2018-09-12 02:49 - Go MAEDA

- Status changed from New to Closed

- Resolution set to Duplicate

A very similar feature was implemented by #29488.
