

Redmine - Defect #37164

Copying a role does not copy custom field visibility

2022-05-26 23:21 - David Robinson

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Administration	Estimated time:	0.00 hour
Target version:		Affected version:	5.0.0
Resolution:			
Description			
When copying a role, any custom field visibility, that is limited to the source role, is not visible for the destination role after completion.
