

Redmine - Feature #3733

Inline images need to be inserted inline into issue comments

2009-08-12 21:31 - Jon Busby

Status: Closed	Start date: 2009-08-12
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Wiki	Estimated time: 0.00 hour
Target version:	
Resolution: Fixed	
Description Images (from email as well) should be imported inline into comments, not just attached

I've fixed this,

I'll try and upload my patch soon.

#4 - 2010-03-11 15:05 - Patrick Cummins

Which release was this included in?

#5 - 2011-10-27 20:26 - Etienne Massip

- Category changed from *Attachments* to *Wiki*

I don't understand what's wrong?

You can display the image you attached if you want and only if you want, this seems fair to me?

I don't get it either. I'd strongly suggest to keep the current behaviour, I think the reasons are obvious.

Note: this issue seems quite old already.. ;/ Let's wait for some feedback...

#7 - 2018-08-06 15:39 - Go MAEDA

- Status changed from *New* to *Closed*

- Resolution set to Fixed

I am closing this issue because [#13429](#) covers this issue.

patch-13429-screenshot.png
And you can include images in journals very easily by drag-and-dropping the image. See [#26071](#) for details.
