

Redmine - Defect #37735

Cannot copy project if you have a file format custom field

2022-10-03 09:21 - naoki takaesu

Status:	Confirmed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Projects	Estimated time:	0.00 hour
Target version:		Affected version:	4.2.3
Resolution:			
Description			
Steps to reproduce			
1. login as admin			
2. Create a project custom field			
1. Format -> File			
2. Name -> foo			
3. Projects -> Administration -> (choose project) -> Copy			
4. push "Copy" button			
It is displayed as follows and cannot be copied			
foo is invalid.			

History

#1 - 2022-10-03 14:59 - Go MAEDA

- Status changed from New to Confirmed

#2 - 2022-11-01 04:05 - Takenori TAKAKI

The following two changes will allow the project to be copied in the same way as copying an Issue.

- (1) Make the custom field value copy in Project.copy\_from same as Issue#copy\_from.
- (2) Specify multipart/form-data in the Project creation form.

The patch is as follows.

```
diff --git a/app/models/project.rb b/app/models/project.rb

<h2><%=l(:label_project_new)%></h2>

<%= labelled_form_for @project, :url => { :action => "copy" } do |f| %>
+<%= labelled_form_for @project, :url => { :action => "copy" }, :html => {:multipart => true} do |f| %>
```

```
<%= render :partial => 'form', :locals => { :f => f } %>
```

```
<fieldset class="box tabular"><legend><%= toggle_checkboxes_link('.box input[type="checkbox"] [name="only[]"] '
) %><%= l(:button_copy) %></legend>
```

The custom field values (files) in the file format saved in the source project will not be copied, but that is the same behavior as Issue copy.
