Redmine - Patch #37748

Favicon takes a long time to load

2022-10-04 12:56 - Gasper C

Description										
'm using passeng	jer standalone an	ıd nginx	as proxy v	vebserver.	Redmine is	v5.0.2.				
've noticed that fa	avicon isn't cache	d, and ta	akes a ridi	culous amo	ount to load	(~30ms).				
While caching sho about 4ms to load	-	d at web	server lev	el, l've notio	ced that whe	en I remove v	versioning fro	om the favi	con, it only	takes
This is a simple pa	atch, maybe it wo	ould be b	etter to re	move some	e more of the	e code relate	d to favicon	but I'm no	t familiar w	ith ruby.

- Status changed from New to Closed

I think the issue was solved with the introduction of Propshaft (#39111).

With Propshaft, instead of appending an asset id as a query string (e.g. favicon.ico?1679302129), a hash value is now included in the file name (e.g. favicon-0e291875c213c5e776c5a68be4c078acb14453a1.ico). As a result, the favicon will be effectively cached in the browser.

#3 - 2024-07-12 11:32 - Go MAEDA

- Related to Feature #39111: Enable Asset Pipeline Integration using Propshaft added
