

Redmine - Feature #37822

Reduce delay in displaying tooltips with icon-only links

2022-10-25 04:36 - Mizuki ISHIKAWA

Target version:			
Resolution:			

Description

Redmine has the feature to display a tooltip when you hover over an element with a title. However, this tooltip is not displayed easily because the delay is set to 400. I would like to reduce the delay, especially for links and buttons that only display icons that require explanation. tooltip.png

History

- File *sample.gif* added

This code sets the delay to 30 for .icon-only.
