Redmine - Patch #37862

Estimated time remaining issue query column

2022-10-30 03:52 - Jens Krämer

Status:	New		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Issues list		**Estimated time:**	0.00 hour
Target version:	Candidate for next major release			

Description

The attached patch, which was extracted from Planio, adds an issue query column that represents the estimated remaining time to completion, calculated from estimated time and done ratio.

The main use case here is to get a quick estimation of the remaining effort for completion of a group of issues by adding the column in the query totals.
