

Redmine - Defect #3793

Error 302 (Found): "Filter chain halted" on issue creation

2009-08-28 21:39 - kardan brueckenschlaeger

Status:	Reopened	Start date:	2009-08-28
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Wont fix		

Description

- PLEASE check your error log

Found

The server encountered an internal error or misconfiguration and was unable to complete your request.

Please contact the server administrator, admin@localhost.com and inform them of the time the error occurred, and anything you might have done that may have caused the error.

More information about this error may be available in the server error log.

Additionally, a 500 Internal Server Error error was encountered while trying to use an ErrorDocument to handle the request.

Input to reproduce

- when the redmine session cookie got deleted, the created of a previously opened 'new issue'-form fails with 302 (Found)
- like in #51, the submitted data are lost

steps to reproduce:

- login
- go to /projects/*/issues/new
- delete the cookie
- submit the issue

- this issue has been reproduced on redmine.org :)

log/production.log:

```
Filter chain halted as [:check_if_login_required] rendered_or_redirected.  
Completed in 0.02353 (42 reqs/sec) | DB: 0.00025 (1%) | 302 Found  
[https://kern.brueckenschlaeger.de/projects/support/issues/new]
```

environment:

- ruby 1.8.7 (2008-08-11 patchlevel 72) [i486-linux]
- Rails Rails 2.1.2
- mysql Ver 14.12 Distrib 5.0.51a, for debian-linux-gnu (i486) using readline 5.2
- git version 1.5.6.5

DATA that caused 302 (Found):

stripped => please check your log

History

#1 - 2009-09-12 12:14 - Jean-Philippe Lang

- Category set to Issues
- Status changed from New to Closed
- Resolution set to Wont fix

When trying to reproduce, I'm redirected to the login form.

As we do a redirect, keeping submitted data would be problematic.

#2 - 2009-09-12 23:46 - kardan brueckenschlaeger

- Status changed from Closed to Reopened

sorry, I did not point that out clearly enough.

you only are able to reproduce the error with exactly the same data as description we sent. I cant explain why that is, maybe because of missing escaping.

I can send you the used text block in case your logs have already been cleaned.

please verify that the error is not valid for redmine.org as I was able to reproduce it with latest source and on redmine.org. or just leave it as wontfix :)

#3 - 2009-11-11 20:47 - Jean-Philippe Lang

| I can send you the used text block in case your logs have already been cleaned.

That would be a good idea. I don't have much time to search the logs.

#4 - 2012-03-20 14:17 - Abhishek Singh

I have the same issue with a cpanel setup with the recent redmine (version 1.3.2). The same setup without cpanel on my local machine works well. The error I get in the logs/production.log is:

Filter chain halted as [:check_if_login_required] rendered_or_redirected.

Whenever the cookie is not there I get a 404 page, but when I try /login the login page is displayed and a cookie "_redmine_session" is set and subsequent browse to the redmine works well. To reproduce the problem, I just remove that cookie and try to browse, the same problem occurs. I'm testing this redmine installation on <http://redmine.ebpearls.com>.

Any solutions would be so helpful.

#5 - 2013-10-14 11:54 - Jean-Philippe Lang

- Subject changed from *Error 302 (Found): "Filter chain halted" on issue creation* to *Error 302 (Found): "Filter chain halted" on issue creation*
