Redmine - Patch #38144

Refactoring: Use Group.visible instead of manual visibility check in GroupsController

2023-01-02 19:17 - Holger Just

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Groups	Estimated time:	0.00 hour
Target version:	5.0.5		

Description

The following patch adapts the find_group behavior in the GroupsController to directly rely on the Principal.visible scope rather than a manual check. The visible behavior should not change at all, the check is just at a more explicit area and thus is a little less likely to be forgotten with future changes.
