

Redmine - Defect #3830

Blank page after activating the forum module

2009-09-07 16:17 - Matthieu Brucher

Status:	Closed	Start date:	2009-09-07
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	0.8.3
Resolution:	Invalid		
Description			
<p>Hi,</p> <p>I have a Redmine 0.8.3 with a project where I deactivated at its creation the issues module. I've reactivated it and created a new category.</p> <p>When I went to the New issue panel, it said:</p> <p>"No tracker is associated to this project. Please check the Project settings."</p> <p>On the Issues panel, it displays that there is nothing, but no error. When I go to the project settings panel, I have a blank screen : </p> <p>I have no clue as to how to fix this, any help (although it is a private webserevr with no Internet access) would be appreciated.</p>			

History

- Status changed from New to Resolved

It seems that it may be a browser bug although I don't know why Firefox has an issue with the setting page...

#2 - 2009-09-18 03:43 - Mischa The Evil

- Status changed from Resolved to Closed

- Resolution set to Invalid

When I went to the New issue panel, it said:

"No tracker is associated to this project. Please check the Project settings."

This "error-message" is not related to the forum-module at all. You get that message because you are trying to add an issue to a project without any [trackers](#) enabled.

Please post the snippet of your log containing the stack-trace of the error to the [Redmine forums](#) including your environment details (see [Submissions](#) ) since this is not the right place to discuss support issues.

Kind regards,

Mischa.
