

Redmine - Patch #38408

Remove experimental flag from "Preferred part of multipart (HTML) emails" setting

2023-04-04 12:00 - Go MAEDA

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Email receiving	Estimated time:	0.00 hour
Target version:	5.1.0		
Description The setting "Preferred part of multipart (HTML) emails" was introduced in Redmine 4.1.0 released in 2019 (#30838). The setting has two options, "Text" and "HTML (experimental)". Since this option has been available for more than three years and no significant problems have been reported, I believe it is time to remove the "experimental" label.
