History

#1 - 2009-09-17 09:17 - Thomas Pihl

Perhaps with the exception of password reset emails?

#2 - 2009-09-17 19:41 - Lucas Panjer

Yes, definitely.

I was thinking that the user should have an additional option of "No notifications" in the *Email Notifications* section on the *My Account* page. This would suppress issue and other event notifications, but not administrative emails such as password resets.
