Description
I am looking into setting a default layout for the users in my setup. There are some interesting discussions such as: https://www.redmine.org/boards/2/topics/27145?r=27355#message-27355 I have search and it seems that there's currently no plugin to set the layout. Another thing that would be easily useable would be an API endpoing for the user preferences, does this exist?
