

Redmine - Feature #38951

Enable journaling on projects

2023-08-14 15:13 - salman mp

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Projects	Estimated time:	0.00 hour
Target version:			
Resolution:			
Description			
It's so usefull to have history of project field and custom fields changes. Also it's desirable about project settings changes.			

History

#1 - 2023-08-19 17:25 - salman mp

- File `Add_history_to_project.patch` added

This is my basic PR.

P.S: There is some signs of copy/paste from issue journals in the functions comments of patch file :)

#2 - 2023-08-19 23:17 - salman mp

- File `Add_project_fields_to_issue_helper_detail_to_str.patch` added

missed part:

I added the "project history" menu item in another plugin `Init.rb` file

```
menu :project_menu, :project_history, :project_history_url,  
  param: :project_id, before: :activity, caption: :label_project_history
```

What is the better way and better place to do it?

Another missed part is the way we should convert journal detail to string. It's using `issue_helper` right now and it seems better to move `details_to_string` and `show_detail` methods to `journal_helper`.

#3 - 2023-12-12 10:00 - it Testing

Which redmine version is this compatible with?

#4 - 2023-12-12 16:02 - salman mp

it Testing wrote in [#note-3](#):

Which redmine version is this compatible with?

It was tested on Redmine 4.2
