Description

Hi,
please compare the unified diff obtained from :
http://www.redmine.org/projects/redmine/repository/diff?rev_to=2887&rev=2886

with the reverse one at :
http://www.redmine.org/projects/redmine/repository/diff?rev_to=2886&rev=2887

In the first one, some files are added, e.g. :
--- trunk/vendor/plugins/prepend_engine_views/init.rb   (revision 0)
+++ trunk/vendor/plugins/prepend_engine_views/init.rb   (revision 2887)

in the second one, these same files are not removed...

This is odd indeed, but this is what svn diff gives.
You can try:

```
svn diff -c 2887 http://redmine.rubyforge.org/svn/trunk
svn diff -c -2887 http://redmine.rubyforge.org/svn/trunk
```
