Target version:	Affected version:
Resolution: Duplicate	
Description Hi everyone, I'm actually working with Redmine 3.4.6 stable. When I access to my main project, the ticket view appears by default with a filter that sorts the issues by ticket number. I would like to change this default so that the issues are sorted by the "Updated" field instead of by ticket number. Could you please tell me if this is possible, and if so, how to configure it? Thanks in advance.

History

#1 - 2023-09-11 14:06 - Holger Just

- Is duplicate of Feature #7360: Issue custom query: default query per instance, project and user added

#2 - 2023-09-11 14:06 - Holger Just

- Status changed from New to Closed

- Resolution set to Duplicate

Redmine 3.4 is very old. We do not provide any support for this old version anymore.

Starting with Redmine 5.0.0, you can define your own global (or project-specific or user-specific) default query. See [#7360](#)
