Target version:	0.8			
Resolution:	Fixed			

Description

Links using fragment URIs to notes added by users to issues.

Pasting links in IM (Skype, etc.) would be so much nicer:

http://demo.redmine.org/issues/show/1#note-3

instead of

http://demo.redmine.org/issues/show/1 (see the comment 11/17/2006 11:14 AM - Dave Loper)

Bugzilla could serve as an example. It also adds a nice link "reply to this comment", wich adds some content
into the textarea via javascript, refering to the comment.

Magic links (e.g. note-12345 -> http://demo.redmine.org/issues/show/1#note-3) would also be handy (just like with
#123 and r123).

History

#1 - 2007-08-12 10:00 - Jean-Philippe Lang

The main point (anchor links) is done in rev 613.
You can now link to notes using: /issues/show/1#note-3
These links appear for each note on the issue history.

I'll try to add magic links too.

#2 - 2008-06-14 17:09 - Jean-Philippe Lang

- Category set to Issues

- Status changed from New to Closed

- Target version set to 0.8

- Resolution set to Fixed

"Reply" link added in r1480.

Did the magic links get implemented? I would find that useful.

#4 - 2010-05-31 20:55 - Guilherme Schneider

About magic links, see [#2715](#2715)
