

Redmine - Defect #3940

Git: The entry or revision was not found in the rebased repository

2009-09-29 03:41 - Alain Beauvois

Status:	Closed	Start date:	2009-09-29
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	SCM	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Duplicate		
Description After a git rebase, the last revision in the master branch is handled incorrectly by redmin. if one clicks on the revision link, an error message is displayed sayint that "The entry or revision was not found in the repository". It is a revision that was created and committed after the branch creation.			
Related issues: Is duplicate of Redmine - Defect #7146: Git adapter lost commits before 7 day... <div>Closed2010-12-21</div>			

History

#1 - 2009-11-20 15:29 - Curtis Hall

Sounds like this:

<http://www.redmine.org/boards/2/topics/9705>

[#9705](#)

#2 - 2011-02-04 00:27 - Toshi MARUYAMA

- Subject changed from *The entry or revision was not found in the repository* to *Git: The entry or revision was not found in the rebased repository*

#3 - 2011-02-04 01:07 - Toshi MARUYAMA

- Status changed from *New* to *Closed*

- Resolution set to *Duplicate*

The reason is Redmine parse only 1 week before the last known commit.
Please see [#7146](#).
