

Redmine - Defect #39779

html_title and author line helper issues with usernames in Arabic script

2023-12-05 09:19 - Mischa The Evil

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	l18n	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:			

Description

I haven't looked into it, but I noticed this while checking out [redmine classes](#).

- html_title (rendering) issues on /users/[id] (might be a browser issue instead):

	Arabic script username	Non-Arabic script username
html tag	<title>حسین درادکه - Redmine</title>	<title>Mischa The Evil - Redmine</title>

- author line helper issues on topics/messages in (at least) the forums (any maybe other objects):

2023-12-05_08-30-47.png
html tag:

```
<span class="author">Added by <a class="user active" href="/users/547897">حسین درادکه</a> <a title="2023-12-02 11:08" href="/projects/redmine/activity?from=2023-12-02">3 days</a> ago</span>
```

with mouse-hover:
