| Description | | | |
| <p>I like to use News to communicate with the my client. It is useful to link to the milestone page in the news item. If I use standard wicki markup eg</p> <p>[[Contact]]</p> <p>it looks great on the web but not in the email. Would be cool if it was converted to the appropriate URL in the email</p> | | | |

History

#1 - 2011-11-19 14:48 - Jean-Philippe Lang

- Subject changed from *Wiki links should be converted to URLs when sent in emails like News items* to *Wiki links should be converted to URLs in plain text emails*

- Category changed from *News* to *Email notifications*

Only applies to plain text emails. Works OK for HTML emails.
