

Redmine - Defect #40301

Issue - New version: Error when create a version with custom field of "File" type

2024-02-22 15:17 - Morris Penasso

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	5.1.0
Resolution:			
Description			
Following this path: Open existing issue -> Edit -> Target Version -> Create new one with green button.			
I have a "File" custom field that is not required but when i try to save version after enter the name, the system say me that the custom field is not valid. I try to delete it and create another one but i obtain the same error (only with "File" custom field).			
System informations:			
Environment:			
Redmine version	5.1.0.stable
