Thank you for reporting the issue. I am attaching an updated patch with a test code.

The original patch raises an exception when rendering a specific version of a Wiki page. The attached patch includes the fix for it.

```
ActionView::Template::Error (undefined method `versions' for an instance of WikiContentVersion):
 85: <p class="wiki-update-info">
 86:   <% if User.current.allowed_to?(:view_wiki_edits, @project) %>
 87:     <%= wiki_content_update_info(@content) %>
 88:     · <%= link_to l(:label_x_revisions, :count => @content.versions.all.size), {:action => 'history',
:   :id => @page.title} %>
 89:   <% end %>
 90:   <% if @page.protected? %>
 91:     <span class="badge badge-status-locked"><%= l('status_locked') %></span>
```
