Description			
A test failure occurred as follows:			
Failure:			
JournalsHelperTest#test_journal_thumbnail_attachments_should_be_in_the_same_order_as_the_journal_details [/usr/src/redmine/test/helpers/journals_helper_test.rb:87]:			
Expected: 2			
Actual: 3			
rails test test/helpers/journals_helper_test.rb:65			
I cannot reproduce it because I forgot to seed, but I think the issue is caused by the absence of journal_details in the fixtures, despite it being used in the test at https://github.com/redmine/redmine/blob/master/test/helpers/journals_helper_test.rb#L87 . The following patch should fix it:
