Description	
<p>We need two additional options for each custom field of an issue:</p> <p>1st the visibility of a custom field is dependent on a specific state of workflow 2nd and the attribute "required field" is dependent on a specific state of workflow</p> <p>We think it would be an interesting enhancement for redMine !?</p>

Probably to be able to set HTML's attributes on per-field basis...

Like "disabled" or "style="background-color:red"
