

Redmine - Defect #41051

Export CSV shows HTML code of description field

2024-07-23 10:42 - YoZ Art

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues list	Estimated time:	0.00 hour
Target version:		Affected version:	5.1.3
Resolution:	Invalid		

Description

I have recently upgraded from Redmine 2.6 to 5.1.3

When you try to export the list of issues as a CSV including description column, it will also include HTML code. It is certainly because I'm using CK Editor plugin but the behavior was different in version 2.6 where it was removing all HTML tags and leave only the text resulting.

for information purpose, link to the plugin CKEditor :

https://github.com/yoart/redmine_ckeditor

History

#1 - 2024-07-23 11:13 - YoZ Art

- File *export2.6.csv* added

- File *export5.1.3.csv* added

2 sample files included for you to compare the difference

#2 - 2024-07-23 13:28 - Holger Just

- Status changed from *New* to *Closed*

- Resolution set to *Invalid*

Please contact the maintainers of your ckeditor plugin.

Generally, the various ckeditor plugins significantly change how formatted text is stored and handled from the default Redmine. Thus, unless your issue can be reproduced from an unchanged Redmine and with data entered into this unchanged Redmine, we can't help you with this issue here unfortunately,.

#3 - 2024-07-29 09:48 - YoZ Art

For those reaching this topic, I made a fix available here :

https://github.com/yoart/redmine_ckeditor
