

Redmine - Defect #41247

Fields permission

2024-09-11 13:32 - Ayden Cho

Status: Closed	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	Affected version:
Resolution: No feedback	

Description

It is not working for "Fields permission" on Custom fields.

in the menu "Fields permission",
I was changed to "read-only" for some roles, but the user can edit the field.

Environment:

Redmine version	5.1.2.stable
Ruby version	3.2.4-p170 (2024-04-23) [x86_64-linux]
Rails version	6.1.7.7
Environment	production
Database adapter	Mysql2
Mailer queue	ActiveJob::QueueAdapters::AsyncAdapter
Mailer delivery	smtp

History

#1 - 2024-09-11 13:35 - Ayden Cho

for "Fields permission" on Custom fields.

#2 - 2024-09-12 02:24 - Go MAEDA

- Subject changed from *Filelds per* to *Filelds permission*

If the user is an administrator, the user can edit the field even if the field is set as "Read-only".
It is the expected behavior.

#3 - 2024-09-12 05:49 - Ayden Cho

for "Fields permission" on Custom fields.

The user is not an administrator...

#4 - 2024-09-12 09:12 - Ayden Cho

The user is auther...

#5 - 2024-09-12 14:57 - Holger Just

- Subject changed from *Filelds permission* to *Fields permission*

- Status changed from *New* to *Needs feedback*

Redmine applies the most-open rules for fields permissions to users.

If a user has multiple roles in a project, they can edit the field if any of the roles allows editing the field. Similarly, they can leave the field unset if any of the user's roles does not enforce the field to be required.

Please check all of the roles for the user in the project. If you still observe the issue, please provide detailed information about the roles of the user in the project, details about the fields permission settings for all of these roles, as well as details about the specific issue (given that the permissions are specific to a specific tracker and status).

#6 - 2024-12-29 02:25 - Go MAEDA

- *Status changed from Needs feedback to Closed*

- *Resolution set to No feedback*
