

Redmine - Patch #41313

Fix test/unit/issue_test.rb to use correct IANA timezone name "Asia/Hong_Kong" instead of deprecated "Hongkong"

Category:	Code cleanup/refactoring	Estimated time:	0.00 hour
Target version:	5.0.10		
Description			
I am working on updating the Debian package of Redmine. As part of that work, I noticed that test/unit/issue_test.rb produces the following failure:			
Failure: IssueTest #test_issue_overdue_should_respect_user_timezone [/<<PKGBUILDDIR>>/test/unit/issue_test.rb:3410]: Expected false to be truthy.			
rails test test/unit/issue_test.rb:3388			
The root of this problem is that this test uses the Hongkong, which Debian no longer resolves to Asia/Hong_Kong. The attached patch fixes this problem by using Asia/Hong_Kong directly.
