- Category set to Issues list

The Japanese part of original post says:

With the update in #16045, the "Previous Assignee" was added to the assignee field of the "Edit issue" screen. Would it also be possible to add "Previous Assignee" as a column in the issues list?

Currently, I have added the "Author" and "Last updated by" columns to the issues list. Adding "Previous Assignee" to the list as well would make it easier to understand the state of each issue.
