Description

Value of this Feature

Administration / Settings --> There are flag for default issues list:
https://img.serpstat.com/prayer/2024-11-18_190440_1779x1331_ZPUMUSOd3k.png

And there are list of issues in every issue with subtasks:
https://img.serpstat.com/prayer/2024-11-18_190813_1478x600_LNvp9yN1VC.png

But this second list not customizable and this is very uncomfortable

To do

Associate default issues list setting with subtasks list, which will make it possible to work with these lists much more comfortably

---

History

#1 - 2024-11-18 18:17 - Micael Broun

Implementation options:

1. Associate default issues list setting with subtasks list, which will make it possible to work with these lists much more comfortably

2. Add new flag 'apply this settings to the list of subtasks'
