### Description

The warning icon shown in the watcher list for users who cannot view the issue is still an old image. I propose a patch to replace it with an SVG icon.

Merge r23388 from trunk to 6.0-stable (#41918).

### History

Thank you for submitting the patch. However, the original yellow icons, which were more noticeable, have been replaced with blue line icons, making them less prominent.

I believe it would be better if filled yellow icons could be displayed.

I agree with the comment from Go Maeda ([#note-1](#)).

It seems that specifying the class attribute of the svg tag in application.css as follows will enable the color specification.

```

I found that the Warning icon needs to be replaced for more than just the watcher list.  
The replacements needed are as follows.

- Watcher list
