Description			
The current HTML 2FA input has autocomplete disabled:			
<pre><input type="text" name="twofa_code" id="twofa_code" tabindex="1" autocomplete="off" autofocus="autofocus"></pre>			
To assist password managers, we should switch it to one-time-code			
<pre><input type="text" name="twofa_code" id="twofa_code" tabindex="1" autocomplete="one-time-code" autofocus="autofocus"></pre>
