

Redmine - Defect #42004

Problem with upgrading Redmine from 5.1.3 to 6.0.2

2024-12-17 09:41 - Robert Swansons

Status:	Needs feedback	Start date:

Category:		Estimated time:	0.00 hour
Target version:		Affected version:	6.0.2
Resolution:			
Description			
Hello.			
I've upgraded my Redmine to verison 6.0.2 Now when i go to Projects on my Redmine instance, I get following error in logs:			
<code>ActionView::Template::Error (Alias parsing was not enabled. To enable it, pass `aliases: true` to `Psych::load` or `Psych::safe_load`.):</code>			
My file configs:			
my snippet of <code>/usr/src/redmine/config/application.rb</code> looks like this:			
<pre>config.active_record.store_full_sti_class = true config.active_record.default_timezone = :local config.active_record.yaml_column_permitted_classes = [Date, Time, *Set* , Symbol, ActiveSupport::HashWithIndifferentAccess, ActionController::Parameters]</pre>			
And in <code>/usr/local/lib/ruby/3.3.0/psych.rb</code> I have:			
<pre>def self.safe_load yaml, permitted_classes: [], permitted_symbols: [], aliases: *true* , filename: nil, fallback: nil, symbolize_names: false, freeze: false, strict_integer: false</pre>			
This would previously help me with aliases/parsing problems in 5.1.3 but does not help in Redmine 6.0.2 Is there anything I could do to make it work?			
Thanks.			

History

#1 - 2024-12-17 12:18 - Holger Just

- Description updated

#2 - 2024-12-17 12:20 - Holger Just

- Status changed from New to Needs feedback

Could you please add the full stacktrace which corresponds to the error? That will allow us to pinpoint the specific code location which may be affected by this issue.

#3 - 2024-12-17 14:01 - Robert Swansons

Sure
