

## Redmine - Patch #42081

### Copying following tasks

2025-01-07 17:03 - Alfredo Renzetti

<b>Status:</b>	New	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Description</b>			
Hello			
with the attached modified files it would be possible, when copying a task or a set of tasks, to have the option to copy all its following tasks.			
<b>This option appears only if the task to be copied or at least one of the task to be copied has a "precedes to" relation.</b>			
I am not an expert user of GIT and all the environment set around Redmine, so I am not able to create a proper patch, that's why I am attaching the modified files for a volunteer to possibly insert this modification within the next releases of Redmine (this modification has been done on Redmine 5.1.3).			
Added code is enclosed within comments (HTML or Ruby depending on the type of file):			
<pre># ALF - Ruby comment, following code has been added by me, starts the added code section # /ALF - Ruby comment, previous code has been added by me, ends the added code section # ALF: Explanation - Ruby comment, "Explanation" explains where the added code is  &lt;!-- ALF --&gt; - HTML comment, following code has been added by me, starts the added code section &lt;!-- /ALF --&gt; - HTML comment, previous code has been added by me, ends the added code section</pre>
