Description

Hello,

I am currently using Redmine 5.1.1 and we have the parameters Start Date and Due Date in the issue page. However, I would like to have the time component alongside these date fields as it would be beneficial for defining our SLAs.

We are aware of a plugin available in ticket #5458 but it seems to compatible only up to Redmine version 3.x

Could someone please let me know if there is a similar plugin or built in solution available for Redmine 5.1.1? Or any guidance on how to achieve this would also be greatly appreciated!

Sharing my environment info:

Redmine version 5.1.1.stable
Ruby version 3.0.6-p216 (2023-03-30) [x86_64-linux]
Rails version 6.1.7.6

Thanks in advance.
