Redmine - Defect #42486

404 & 500 Pages missing favicon

2025-03-26 14:09 - Valentin Kleibel

Status:	Confirmed	**Start date:**	
Priority:	Normal	**Due date:**

Category:	UI	**Estimated time:**	0.00 hour
Target version:			
Resolution:		**Affected version:**	6.0.4

Description

Currently (v6.x) the error pages don't have a favicon.

Since [r22692](r22692) the favicon is generally not loaded from /favicon.ico but via the assets pipeline and was removed from public/favicon.ico.
As the 404 & 500 page don't specify a favicon it was previously loaded by Browsers from the default path /favicon.ico.

One Option to fix this would be to just keep a copy of favicon.ico in the public folder.
