

Redmine - Patch #4263

Users getting notifications for issues they cannot view

2009-11-22 18:51 - Bradly Feeley

Status: Closed	Start date: 2009-11-22
Priority: High	Due date:

Category: Email notifications	Estimated time: 0.00 hour
Target version: 0.9.0	
Description Fixes a bug that would notify user on issues they can no longer view. Example: Jane creates an issue in Project A. That issue is copied to Project B that Jane is not a member of. Jane will still get e-mails but the links to the issue won't work for her. I have a fork on github with the fix and test. http://github.com/bradly/redmine/commit/2b5f422b324b7b034fcc74135827a032807f2358 I've also attached an svn patch file. This is my first Redmine patch. Let me know if you need any thing else from me. Thanks, Bradly Feeley
