

Redmine - Feature #4288

Maintain activity traces of an issue after it has been deleted

2009-11-25 11:17 - Ryan Phung

Status:	New	Start date:	2009-11-25

Target version:			
Resolution:			
Description Currently in Redmine, if users create an issue, do a lot of update to it, and then delete the issue (using Admin account), then users cannot find any trace of the issue (in the Activity tab). For big projects, it is necessary to maintain the traces of the issue even though it has been deleted; mainly for auditing purpose.
